LOCATION: Project is located southeast of Gallatin and Town Creek; south of State Route 109 By-Pass on an unnamed tributary to Town Creek; Sumner County.

WATERSHED DESCRIPTION: The proposed site is open field. Surrounding land use is residential. The unnamed tributary is an intermittent stream with some established canopy and riparian areas.

PROJECT DESCRIPTION: The applicant proposes to construct Clear Lake Meadows Subdivision. The proposed project will involve the following:

- The relocation of 533 feet into 547 feet of new channel.
- The placement of 81 feet in a culvert for a road crossing.
- Removal of the impoundment structure and construct 541 feet of new channel
- The relocation of 232 feet of an unnamed tributary on Lot #48. with a portion placed in a culvert for a road crossing.
- Fill 1838 feet of wet-weather conveyance and construct 1469 feet of wet weather conveyance.

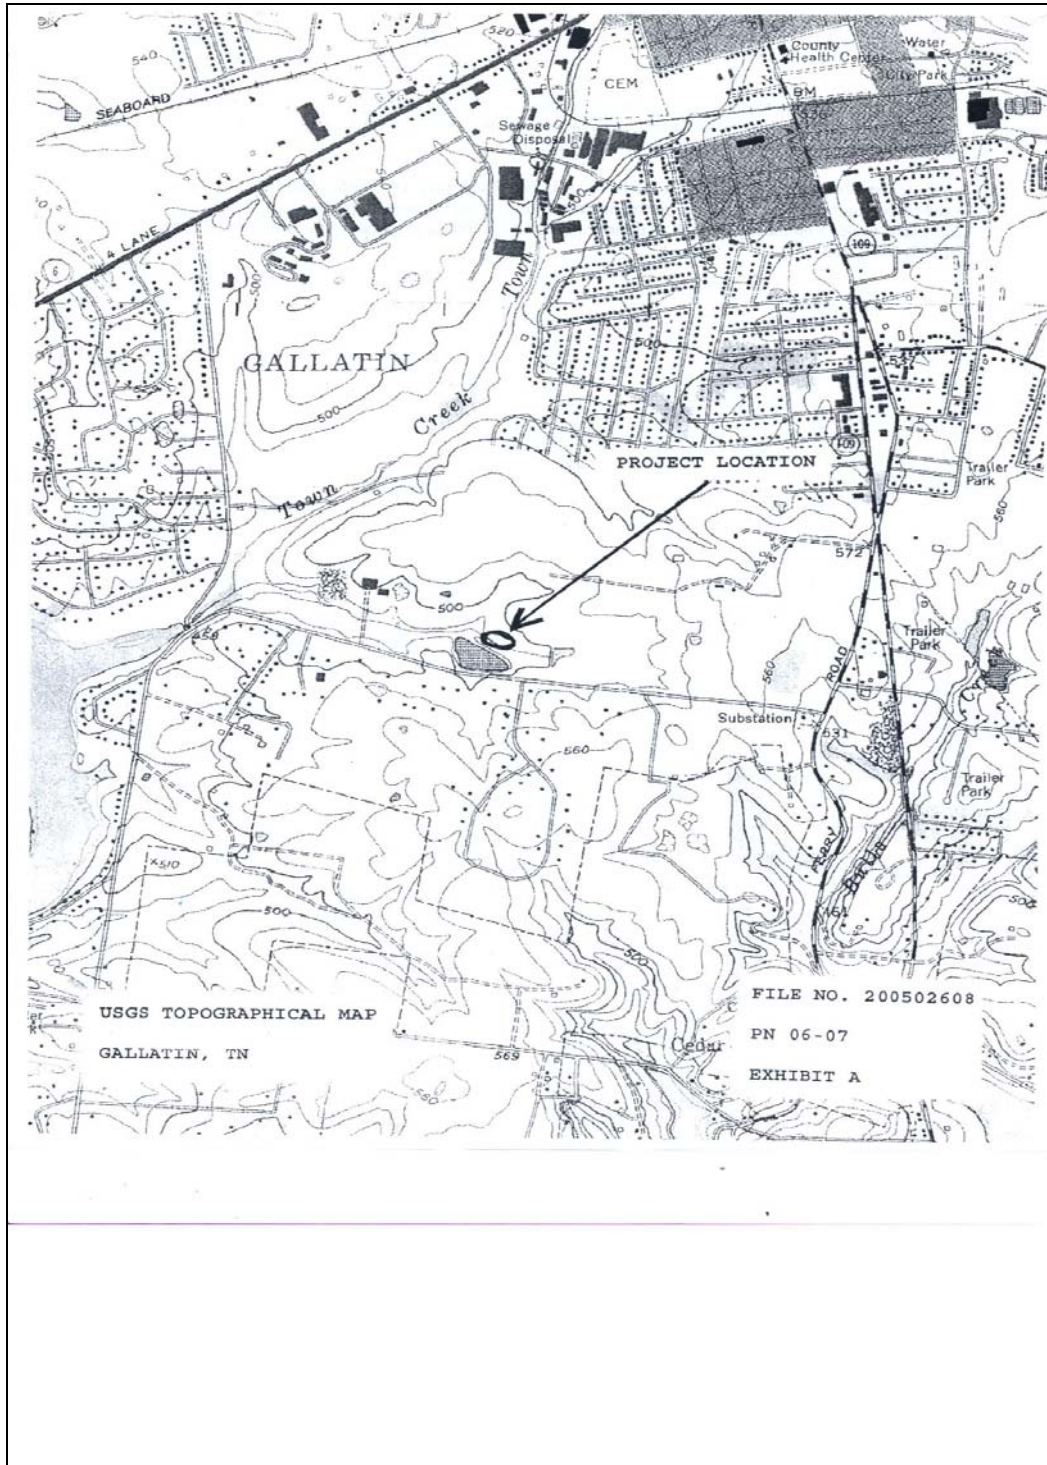

All relocated intermittent stream channels will be planted with at least 1.0 "dbh native trees in two alternating rows on 15-foot centers.

In stream habitat features will be installed. The applicant will monitor the relocated channels for at least five years with annual report submitted to this office. A 75% survival rate will be guaranteed as well as the stabilization of all banks, substrate and the development of in-stream habitat.

In accordance with the Tennessee Antidegradation Statement (Rule 1200-4-3-.06), the division has determined that the proposed activity will not result in degradation to water quality.
